

THREE DEAD IN CAPITAL STORM

Wind, Rain and Hail Sweeps Washington.

PROPERTY DAMAGE IS HEAVY

Many Homes Unroofed by Gale Which Reached Velocity of Seventy Miles an Hour—Fifteen Persons Carried Down in Crash of Office Building. Wild Scramble for Money.

Washington, July 31.—Like a giant fall, a cyclonic storm of wind, rain and hail whipped back and forth across the nation's capital, leaving death and ruin in its wake.

Three dead, scores injured, and hundreds of thousands of dollars worth of property ruined were the toll recorded in the hurried canvass made when the city aroused itself from half an hour of helplessness in the grasp of the elements.

Out of a blazing sky, under which the city was sweltering with the temperature at the 100 point, came the storm roaring from the north, driving a mass of clouds that cast a mantle of darkness over the town.

Creates Havoc in City.

The gale, reaching a velocity of nearly seventy miles an hour, swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks.

As the wind wrecked its havoc the rain came and in five minutes the temperature had dropped from the 100 mark to between 60 and 70.

Then the rain turned to hail, and hailstones battered on roofs and crashed through skylights and windows.

Suspends City's Activity.

For half an hour the city covered, paralyzed, under the beating of the storm, every activity suspended. Trolley lines, telephone lines and street traffic were halted and the government departments suspended operations.

The wind wrecked a three-story brick office building occupied by the B. S. Saul company, real estate dealers, and fifteen persons were carried down in the crash.

W. E. Hilton, vice president of the real estate company; Thomas B. Pealey, sixty-five years old, a clerk, and an unidentified man, who entered the building trying to rescue those caught in the wreck, were taken from the wreck dead. Half a dozen more were treated for slight injuries.

The neatly kept lawns of the White House were devastated. Three huge elm trees, uprooted by the wind, were thrown across the lawn and up to the very portico of the building, blocking the drives.

Hurries Wilson to Safety.

President Wilson was seated in the executive offices when the wind crashed through several windows in the White House proper. Secretary Tumulty hurried the president and Representative Korbly of Indiana, with whom he was conferring, to a sheltered interior room away from the searching lightning flashes.

Wild Scramble for Money.

While the storm was at its height, 1,000 one-dollar bills were swept from a window in the government bureau of engraving and printing and scattered over the lawn.

Men seeking shelter from the storm braved the wind and rain in an effort to corner a share of the money. There was a wild scramble.

Director Ralph hurried out a force of armed scouts and all but \$75 worth of the bills was recovered.

PANIC AMONG MANIACS IN FIRE

Din Heard for Miles While Flames Leap Above Institution.

Milwaukee, July 31.—Fire broke out in the buildings of the Milwaukee Asylum for the Chronic Insane and wild scenes of disorder followed among the 300 patients.

The insane rushed to the windows of their wards, smashed the lights, fought back the guards and for a time had complete control of the place.

Amid a terrific thunderstorm and vivid lightning the howling maniacs created such a din that it could be heard for miles about the country.

Just as they were about to break forth from their dormitories a squad of thirty patrolled patients arrived from a nearby asylum and fought back the frenzied men and women.

The fire destroyed several large sheds and barns, but a heavy rainfall and sudden change of wind prevented the dormitories from becoming ignited.

HEROINE SERIOUSLY BURNED

Milwaukee Woman, After Saving Baby, Returns for Money.

Milwaukee, Wis., July 31.—Mrs. Bertha Bennhold was seriously burned when, after saving her baby girl from her burning home, she rushed back into the flames to get \$67, which she had hidden in the pantry. Her clothing became ignited, and her husband and son went into the fire and carried her out. The house was destroyed.

FERRIS FAILS TO END STRIKE

Michigan Operators Decline to Meet Union Delegation.

DISORDERS ARE RENEWED

Militia Adopts Firm Measures—Striker Is Bayoneted—Mother Jones Has Been Asked to Lend Her Aid to Calumet Men.

Calumet, Mich., July 31.—Governor Ferris' effort to end the strike of 15,000 copper miners through a conference between representatives of the union and mining companies, failed when the operators refused to meet with representatives of the Western Federation of Miners. The substance of their reply mailed to the governor was that they were willing to meet committees of men provided they came as employees and not as representatives of the union.

The union endorsed the governor's plan. There were renewals of the disorders of the early days of the strike and the militia adopted firm measures to put down all disturbances.

Miner Bayoneted.

In one case a miner was bayoneted through the thigh by a militiaman. General Abbey spurred his horse through the ranks of a party of strikers he met on his way from a conference in Houghton to South Range. The men were making their way to a mass meeting in the forest when the militia commander came upon them. They opened a way for him and no one was injured.

Troops were stoned by crowds of miners and shots were fired at them twice but no one was injured. Mother Jones has been asked to lend her aid to the miners. A telegram asking for her services was sent to the United Mine Workers and a response said that the invitation would be forwarded to her in West Virginia. The telegram which was from John P. White, president of the United Mine Workers, indicated that the support of his organization was at the disposal of the local strikers.

Butte Local Offers Aid.

The Western Federation headquarters also announced that a message offering aid, was received from Butte, Mont., Local No. 1, which, with its 8,500 members is the largest local in union circles.

The strike situation is unchanged. Scores of surface employees returned to work at the various mines and a renewal of sluggings was predicted.

To meet this situation, guards were increased at the shaft houses, and the signal corps, which possesses forty-five horses, was converted into cavalry and used for patrol duty. Troops escorted to their homes nonunion workmen who feared to walk the street alone.

Arrests for alleged participation in the riot near Atlantic were increased to twelve. Three of the prisoners, who were accused of being ringleaders in the attack on nonunion men, resisted the sheriff's deputies and were taken only after militiamen had gone to the assistance of the civil officers.

TRAINMEN VOTE TO QUIT

86 Per Cent of Employees of Pacific Division Favor Strike.

San Francisco, July 31.—Ninety-six per cent of trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment, rating and seniority allowed on the company's electrical lines can be adjusted.

Southern Pacific officials announced that they will invoke the mediation of the national government through the Newlands act to settle their difficulties with their employees.

Suicide Uses Dynamite.

Marquette, Wis., July 31.—While walking through a cemetery Charles Wester, fifty-six years old, placed a stick of dynamite in his mouth, lighted the fuse and waited until the dynamite exploded. The entire upper part of his body was blown to pieces. It is thought financial worries caused him to commit suicide.

HATED TO LEAVE PRISON

Prisoner Holds Reception for Friends. Served Thirty-four Years.

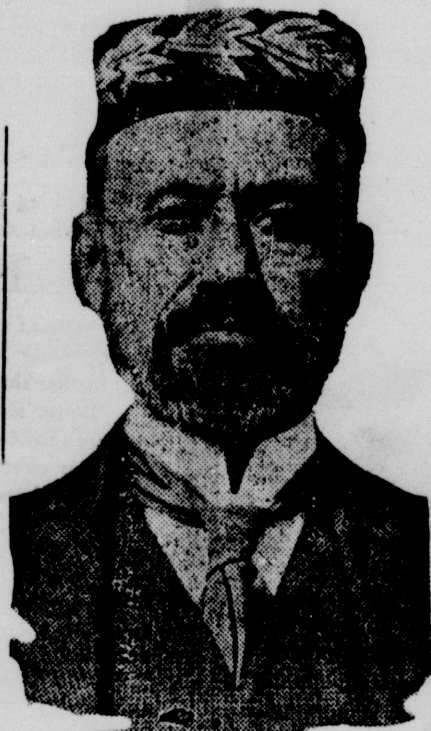

Thomaston, Me., July 31.—Samuel D. Haynes of Detroit walked out of the prison gates after serving thirty-four years for the murder of James L. Robbins. His sister, Mrs. F. H. Rogers of Detroit, telephoned the prisoner that Governor Haines had pardoned him.

"The battle is won," Haynes told Warden Ham, "but I hate to leave."

Outside the prison he held a reception for a big crowd who knew him as a model prisoner.

CIPRIANO CASTRO.

Said to be Planning Invasion of Old Stronghold.

by American Press Association.

EX-DICTATOR PLANS COUP

Revolutionary Activities Credited to Ex-President.

Bogota, Colombia, July 31.—Active revolutionary movements in Venezuela and the invasion of that country simultaneously at various points on the Colombian frontier by adherents of former President Cipriano Castro are reported by the newspapers here. The last definite news of the whereabouts of Cipriano Castro, former dictator of Venezuela, was his arrival in Berlin from New York. After he left the German capital he was reported to have reached Canary islands, whence he disappeared.

TWO DEAD, MANY HURT IN CYCLE BLOWUP

Motor Vehicle Crashes Into Post and Gas Tank Explodes.

Cincinnati, July 31.—Two are dead, six will die, according to attending physicians, one other is probably fatally burned and eleven persons are seriously injured as the result of a motorcycle accident at the Lagoon motordrome, across the river from this city.

Odin Johnson of Salt Lake City, captain of the Cincinnati team which was contesting at the motordrome, for some reason that probably will remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off, and the contact of the live wire with the machine exploded the gasoline tank, throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life, and William Davis, five years old, is likewise dead as the result of the accident.

Six others, two women and four men, cannot live. That a large number of others, who cannot be located, were burned is almost a certainty, as several drug stores in the vicinity of the place were kept busy for an hour after the accident dressing the burns of those who escaped without serious injury.

The race was the last one on the program and Johnson, who had won both the previous contests, was leading.

In coming in front of the grand stand he was seen suddenly to steer his wheel toward the top and before he could right it again he had hit the pole.

POSTAL BANKS ARE LAUDED

Called "Boon to the Poor Man" by Speaker Before Association.

Denver, July 31.—"Banks under government supervision have come to stay. They have not interfered with the savings departments of other banks, but have brought millions from hiding places.

These declarations were made by Charles Fullaway, assistant director of the United States postal savings banks, in addressing the annual convention of the National Association of Postmasters.

He said the postal banks had been a "boon to the poor man."

Peace in 90 Days, Carranza's Boast.

Nogales, Ariz., July 31.—Venustiano Carranza, the Mexican rebel chieftain, wired his Washington agents he would pledge peace in Mexico within ninety days if the United States government would grant the Constitutionalists the right to import arms and war munitions freely.

Mrs. Young Will Remain.

Chicago, July 31.—Mrs. Ella Flagg Young, superintendent of the Chicago public schools, who tendered her resignation a week ago because of friction with certain members of the school board, announced she had decided to retain her position. This announcement was made after the newly organized school board had declined by a vote of 14 to 1 to accept her resignation.

ANTI-AMERICAN FEELING STRONG

Little Republics Are Taught to Hate United States.

WAR TALK NOT RELISHED.

Men and Women Who Passed Through the Great Civil Conflict Have Seen Enough of Bloodshed to Last Them. Fighting Sentiment Exists Only Among Younger Generation.

By ARTHUR W. DUNN.

Washington, July 31.—[Special.]—It is evident that there has been a systematic propaganda in the Latin American countries against the United States. All observers agree that those people hate us with an intense bitterness. Quotations from books, pamphlets and newspapers show that the people are constantly misinformed concerning the purposes of the United States.

The more ignorant are told that the United States wants to put them in slavery. The property owners are told that the United States wants to acquire their territory and their property. And this misrepresentation is kept up by some people for the purpose of creating hostility toward Americans and the people of our own country. It might be worth while to spend a little time finding out who maintains an international "lobby" instead of going into so much absurd material here at home.

Had Enough War.

During the talk about war in Mexico it is observed that those men in congress who saw service in the civil war do not relish the idea of another war. They had enough to last them. Likewise the women who can remember the suffering they endured while relatives were in the war do not want any more of it. But new generations arise, and there is always a war spirit in every generation which has had no experience in bloody conflicts.

They Can "Make Faces."

About all that a minority in the house of representatives can do when the majority starts the steam roller is to "make faces," to use an expression from boyhood days. That was the last resort of the small boy against his larger antagonist. The Republicans of the house could not get certain speeches delivered because the Democrats shut them off. Then the Republicans made points of no quorum, forced roll calls and would not permit the house to do any business.

Of course when the majority thought necessary it could call its members back and do anything it determined to do, but meanwhile there was a bit of a shindy every day and nothing accomplished.

Sherman Attentive.

No man in the senate gives closer attention to the proceedings than Senator Sherman of Illinois. No speech is so dry that he will not listen to it; no long drawn out technical tariff discussion is so boring that he does not follow it. In time a senator who gives such close attention to the proceedings will be a mighty well informed man, for, after all, the debates in the senate are instructive if a man can force himself to follow them closely.

Softening the Blow.

Some rather deep feeling was manifested in discussing the Mexican question in the senate. Senator Bacon, who wanted to bill Senator Lodge, softened the blow with a few adjec-

"I am sorry," said the Georgia senator, "that my very learned and distinguished and honored colleague on the committee should permit his present bellicose attitude to lead him astray."

Lodge didn't like the word "bellicose" and insisted that as long as the rights of Americans were trampled upon and Americans were killed without redress there was some reason for a belligerent feeling among the people here.

Still In Cramped Quarters.

When the senate built its magnificent new office building, giving every member of the senate all the room he could utilize, no provision was made for the stenographers. Their work has doubled, the number of employees has doubled in the last twenty years, yet they still occupy the same little cramped quarters that they did forty years ago. It would be inconceivable some senators or perhaps one senator to secure enlarged quarters for the stenographers, and the convenience of a senator is an important matter.

Owen For Peace.

Senator Owen of Oklahoma has joined Secretary Bryan as a peace maker. He proposes that the president shall appoint delegates to an international conference whose purpose shall be to draw terms for disarmament. But there are many nations that believe they are maintaining peace by their large armies and navies, and they might not come. All propositions have other sides when dealing with foreign governments.

Farmers Must Be Considered.

It begins to look as if there will be no currency legislation which will not give consideration to the desires of farmers. Already many men have shown that the subject of rural credits is a live feature.

They've Lost the Key.

In Venice there is a cafe which has been open day and night for one hundred and fifty years.

FRANKLIN D. ROOSEVELT.

Navy Secretary Says Warships Are Needed in Mexico.

by American Press Association.

WARSHIPS MAY GO TO MEXICO

Possibility That Squadron Will Concentrate in Gulf.

Washington, July 31.—The administration is preparing for a possible naval demonstration in Mexican waters.

Franklin D. Roosevelt, assistant secretary of the navy, intimated that the Atlantic squadron may be concentrated in the Gulf of Mexico.

This information leaked out when Senator Weeks asked the assistant secretary to assign two battleships to Boston harbor at the time of the annual meeting of the American Bankers' association the week of Oct. 6. He was told the ships would be needed in Mexican waters.

AVERS REPUBLICANS WOULD BRING PANIC

Minority, in Reply, Say One is Coming Anyway.

Washington, July 31.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Simmons tariff bill, when Senator Stone charged that the Republicans were deliberately attempting to bring on a panic in their speeches attacking the pending measure.

Republican leaders, denying any intention to bring about disaster, declared they feared that such actually would be the result.

Senator Gallinger asserted he was no "calamity howler," but that he actually feared the results which he hoped would not come. If the disaster he feared did not come, the senator said, the glory would go to the Democrats.

Senator Penrose declared that not only did he fear the proposed bill would bring on disastrous consequences, but that industrial depression already was upon the country.

He cited instances of steel mills in Pennsylvania that already had closed down.

While Republican and Democratic leaders were engaged in hot discussion, Senator Kenyon averred that in his talks he had always stated he did not believe the pending bill would result in disaster and that the people of his state did not believe so, either. "Oh, I was not referring to the Progressive Republicans," said Senator Stone. "I meant that the majority on the minority were attempting to arouse the people."

After the flurry of this critical storm and the later excitement caused by a hall and wind storm which forced a recess of the senate, considerable progress was made in consideration of the bill.

PULMOTOR SAVES CHILD.

Minneapolis, July 31.—A newly-born baby girl, daughter of Mrs. William Cummings, was saved from death at the city hospital by the use of the pulmotor. The little girl was born apparently lifeless. Dr. Edmond Smith, hospital staff physician, applied the pulmotor for twenty minutes. Then the child was breathing normally. It is believed she will live. A twin brother was born at the same time.

DEMANDED JURY OF WOMEN

Fair Defendant in Illinois Town Surprised When Convicted.

St. Louis, July 31.—The most surprised woman in Illinois is Mrs. Blanche Thompson, who had demanded a jury of women to try her on a charge of using profane language.

Mrs. Thompson thought sure her own sex would stand by her and was particularly indignant when the six fair jurors within ten minutes found a verdict of guilty and placed her fine at \$5.

It was the first woman jury in Southern Illinois under the new suffrage law giving the women the right to vote and serve on juries and the fact that four of the girls were under age and another did not live within the court's jurisdiction did not prevent their acceptance by both sides.

RECOGNITION OF HUERTA URGED

DAKOTA ROADS GET DELAY

Rate Litigation Goes Over Until September 8.

Pierre, S. D., July 31.—After the refusal of the state to accept a 2½-cent rate and dismiss the passenger and freight rate litigation, the railroads asked for more time on the ground that A. K. Gardner, their attorney in this state, has been ordered by his physicians to take a complete rest.

The state conceded a delay, until not later than September, provided Judge Willard is willing to make the change.

CHILD SHOTS SELF.

New York, July 31.—As little twelve-year-old Susan Lange-negger lay on a cot in Amsterdam hospital suffering from a bullet wound in her head, her mother hovered near and repeated over and over again that she loved the child. And, although Susan was barely conscious, the mother hoped that she might understand. Susan shot herself with a revolver after writing a note saying: "I know you like the two dogs better than you do me, you said so."

Susan may recover, but in that event she will be blind, the hospital physicians say.

Henry Lane Wilson's Plan Impresses Solons.

FULL DATA MAY BE ASKED

President and Secretary Bryan Still Firm in Policy Not to Take Action. Huerta Not to Be Candidate to Succeed Himself.

Washington, July 31.—Ambassador Henry Lane Wilson's conference with members of the senate committee on foreign relations resulted in stronger support for his plan to recognize the Huerta government in Mexico than he has received at any time since reaching Washington.

After a three hours' questioning of the ambassador many members of the senate committee expressed the opinion that serious consideration should be given to his recommendations for a guarded and restricted recognition of Huerta, designed to bolster up the present government until elections can be held Oct. 26.

President Still Firm.

The determination of the government's Mexican policy does not rest with the senate, however, and there was nothing in the situation to indicate that President Wilson or Secretary Bryan had wavered in their determination not to recognize the Huerta government at present.

The conference at the capital was distinctly a presentation of "his side of the case" by the ambassador to Mexico.

As a result of the generally favorable impression he created it is believed the administration will be urged to furnish the senate committee at once with its private information, gathered by William Bayard Hale, Reginald H. Del Valle and by consular agents at various points.

Two principal points of difference have been developed between Ambassador Wilson and the administration. These relate to the present control of Huerta over Mexican affairs and to the conditions that would result from the downfall of the Huerta government.

Ambassador Wilson told the senate committee that the Huerta government dominated affairs throughout the republic and had driven the Constitutionalists out of many of their strongholds, including the states of Coahuila and Nuevo Leon.

The president, it is understood, has information, considered thoroughly reliable by himself and Secretary Bryan, which shows the Constitutionalists strength to be greatly in excess of the estimates of Ambassador Wilson, and indicates that the Huerta government dominates the situation only in a small part of the republic.

Huerta Not a Candidate.

President Huerta had assured him, Ambassador Wilson told the committee, that he would not again be a candidate for president.

Ambassador Wilson told the committee he believed intervention highly undesirable.

## FERRIS FAILS TO END STRIKE

Michigan Operators Decline to Meet Union Delegation.

DISORDERS ARE RENEWED

Militia Adopts Firm Measures—Striker Is Bayoneted—Mother Jones Has Been Asked to Lend Her Aid to Calumet Men.

Calumet, Mich., July 31.—Governor Ferris's effort to end the strike of 15,000 copper miners through a conference between representatives of the union and mining companies, failed when the operators refused to meet with representatives of the Western Federation of Miners. The substance of their reply mailed to the governor was that they were willing to meet committees of men provided they came as employees and not as representatives of the union.

The union endorsed the governor's plan. There were renewals of the disorders of the early days of the strike and the militia adopted firm measures to put down all disturbances.

## TRAINMEN VOTE TO QUIT

86 Per Cent of Employees of Pacific Division Favor Strike.

San Francisco, July 31.—Ninety-six per cent of trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment, rating and seniority allowed on the company's electrical lines can be adjusted.

Southern Pacific officials announced that they will invoke the mediation of the national government through the Newlands act to settle their difficulties with their employees.

Suicide Uses Dynamite.

Marquette, Wis., July 31.—While walking through a cemetery Charles Wester, fifty-six years old, placed a stick of dynamite in his mouth, lighted the fuse and waited until the dynamite exploded. The entire upper part of his body was blown to pieces. It is thought financial worries caused him to commit suicide.

## HATED TO LEAVE PRISON

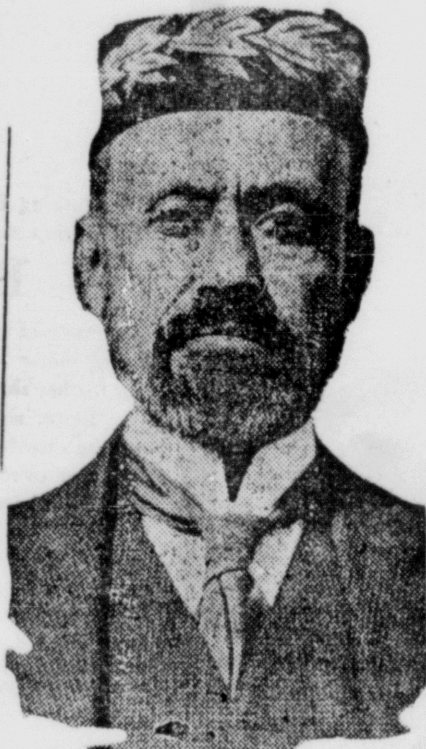

Prisoner Holds Reception for Friends, Served Thirty-four Years.

Thomaston, Me., July 31.—Samuel D. Haynes of Detroit walked out of the prison gates after serving thirty-four years for the murder of James L. Robbins. His sister, Mrs. F. H. Rogers of Detroit, telephoned the prisoner that Governor Haines had pardoned him.

"The battle is won," Haynes told Warden Ham, "but I hate to leave." Outside the prison he held a reception for a big crowd who knew him as a model prisoner.

## EX-DICTATOR PLANS COUP

Revolutionary Activities Credited to Ex-President.

Bogota, Colombia, July 31.—Active revolutionary movements in Venezuela and the invasion of that country simultaneously at various points on the Colombian frontier by adherents of former President Cipriano Castro are reported by the newspapers here. The last definite news of the whereabouts of Cipriano Castro, former dictator of Venezuela, was his arrival in Berlin from New York. After he left the German capital he was reported to have reached Canary Islands, whence he disappeared.

## TWO DEAD, MANY HURT IN CYCLE BLOWUP

Motor Vehicle Crashes Into Post and Gas Tank Explodes.

Cincinnati, July 31.—Two are dead, six will die, according to attending physicians, one other is probably fatally burned and eleven persons are seriously injured as the result of a motorcycle accident at the Lagoon motordrome, across the river from this city.

Olin Johnson of Salt Lake City, captain of the Cincinnati team which was contesting at the motordrome, for some reason that probably will remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off, and the contact of the live wire with the machine exploded the gasoline tank, throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life, and William Davis, five years old, is likewise dead as the result of the accident.

Six others, two women and four men, cannot live.

That a large number of others, who cannot be located, were burned is almost a certainty, as several drug stores in the vicinity of the place were kept busy for an hour after the accident dressing the burns of those who escaped without serious injury.

The race was the last one on the program and Johnson, who had won both the previous contests, was leading.

In coming in front of the grand stand he was seen suddenly to steer his wheel toward the top and before he could right it again he had hit the pole.

## POSTAL BANKS ARE LAUDED

Called "Boon to the Poor Man" by Speaker Before Association.

Denver, July 31.—Banks under government supervision have come to stay. They have not interfered with the savings departments of other banks, but have brought millions from hiding places.

These declarations were made by Charles Fullaway, assistant director of the United States postal savings bank, in addressing the annual convention of the National Association of Postmasters.

He said the postal banks had been a "boon to the poor man."

Peace in 90 Days, Carranza's Boast.

Nogales, Ariz., July 31.—Venustiano Carranza, the Mexican rebel chieftain, wired his Washington agents he would pledge peace in Mexico within ninety days if the United States government would grant the Constitutionalists the right to import arms and war munitions freely.

Mrs. Young Will Remain.

Chicago, July 31.—Mrs. Ella Flagg Young, superintendent of the Chicago public schools, who tendered her resignation a week ago because of friction with certain members of the school board, announced she had decided to retain her position. This announcement was made after the newly organized school board had declined by a vote of 14 to 1 to accept her resignation.

## ANTI-AMERICAN FEELING STRONG

Little Republics Are Taught to Hate United States.

WAR TALK NOT RELISHED.

Men and Women Who Passed Through the Great Civil Conflict Have Seen Enough of Bloodshed to Last Them. Fighting Sentiment Exists Only Among Younger Generation.

By ARTHUR W. DUNN.

Washington, July 31.—[Special.]—It is evident that there has been a systematic propaganda in the Latin American countries against the United States. All observers agree that those people hate us with an intense bitterness. Quotations from books, pamphlets and newspapers show that the people are constantly misinformed concerning the purposes of the United States.

The more ignorant are told that the United States wants to put them in slavery. The property owners are told that the United States wants to acquire their territory and their property. And this misrepresentation is kept up by some people for the purpose of creating hostility toward Americans and the people of our own country. It might be worth while to spend a little time finding out who maintains an international "lobby" instead of going into so much absurd material here at home.

Had Enough War.

During the talk about war in Mexico it is observed that those men in congress who saw service in the civil war do not relish the idea of another war. They had enough to last them. Likewise the women who can remember the suffering they endured while relatives were in the war do not want any more of it. But new generations arise, and there is always a war spirit in every generation which has had no experience in bloody conflicts.

They Can "Make Faces."

About all that a minority in the house of representatives can do when the majority starts the steam roller is to "make faces," to use an expression from boyhood days. That was the last resort of the small boy against his larger antagonist. The Republicans of the house could not get certain speeches delivered because the Democrats shut them off. Then the Republicans made points of no quorum, forced roll calls and would not permit the house to do any business.

Of course when the majority thought necessary it could call its members back and do anything it determined to do, but meanwhile there was a bit of a shindy every day and nothing accomplished.

Sherman Attentive.

No man in the senate gives closer attention to the proceedings than Senator Sherman of Illinois. No speech is so dry that he will not listen to it; no long drawn out, technical, tariff discussion is so tiresome that he does not follow it. In time a senator who gives such close attention to the proceedings will be a mighty well informed man, for, after all, the debates in the senate are instructive if a man can force himself to follow them closely.

Softening the Blow.

Some rather deep feeling was manifested in discussing the Mexican question in the senate. Senator Bacon, who wanted to bluff Senator Lodge, softened the blow with a few adjectives.

"I am sorry," said the Georgia senator, "that my very learned and distinguished and honored colleague on the committee should permit his present bellicose attitude to lead him astray."

Lodge didn't like the word "bellicose" and insisted that as long as the rights of Americans were trampled upon and Americans were killed without redress there was some reason for a bellicose feeling among the people here.

Still In Cramped Quarters.

When the senate built its magnificent new office building, giving every member of the senate all the room he could utilize, no provision was made for the stenographers. Their work has doubled, the number of employees has doubled in the last twenty years, yet they still occupy the same little cramped quarters that they did forty years ago. It would be inconceivable some senators or perhaps one senator to secure enlarged quarters for the stenographers, and the convenience of a senator is an important matter.

Owen For Peace.

Senator Owen of Oklahoma has joined Secretary Bryan as a peace maker. He proposes that the president shall appoint delegates to an international conference whose purpose shall be to draw terms for disarmament. But there are many nations that believe they are maintaining peace by their large armies and navies, and they might not come. All propositions have other sides when dealing with foreign governments.

Farmers Must Be Considered.

It begins to look as if there will be no currency legislation which will not give consideration to the desires of farmers. Already many men have shown that the subject of rural credits is a live feature.

They've Lost the Key.

In Venice there is a cafe which has been open day and night for one hundred and fifty years.

FRANKLIN D. ROOSEVELT.

Navy Secretary Says Warships Are Needed in Mexico.

by American Press Association.

## WARSHIPS MAY GO TO MEXICO

Possibility That Squadron Will Concentrate in Gulf.

Washington, July 31.—The administration is preparing for a possible naval demonstration in Mexican waters.

Franklin D. Roosevelt, assistant secretary of the navy, intimated that the Atlantic squadron may be concentrated in the Gulf of Mexico.

This information leaked out when Senator Weeks asked the assistant secretary to assign two battleships to Boston harbor at the time of the annual meeting of the American Bankers' association the week of Oct. 6. He was told the ships would be needed in Mexican waters.

## AVERS REPUBLICANS WOULD BRING PANIC

Minority, in Reply, Say One is Coming Anyway.

Washington, July 31.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Simmons tariff bill, when Senator Stone charged that the Republicans were deliberately attempting to bring on a panic in their speeches attacking the pending measure.

Republican leaders, denying any intention to bring about disaster, declared they feared that such actually would be the result.

Senator Gallinger asserted he was no "calafinity howler," but that he actually feared the results which he hoped would not come. If the disaster he feared did not come, the senator said, the glory would go to the Democrats.

Senator Penrose declared that not only did he fear the proposed bill would bring on disastrous consequences, but that industrial depression already was upon the country.

He cited instances of steel mills in Pennsylvania that already had closed down.

While Republican and Democratic leaders were engaged in hot discussion, Senator Kenyon averred that in his talks he had always stated he did not believe the pending bill would result in disaster and that the people of his state did not believe so, either.

"Oh, I was not referring to the Progressive Republicans," said Senator Stone. "I meant that the majority on the minority were attempting to arouse the people."

After the flurry of this critical storm and the later excitement caused by a hail and wind storm which forced a recess of the senate, considerable progress was made in consideration of the bill.

## PULMOTOR SAVES CHILD.

Minneapolis, July 31.—A newly-born baby girl, daughter of Mrs. William Cummings,

was saved from death at the city hospital by the use of the pulmotor. The little girl was born apparently lifeless. Dr. Edmund Smith, hospital staff physician, applied the pulmotor for twenty minutes. Then the child was breathing normally. It is believed she will live. A twin brother was born at the same time.

## DEMANDED JURY OF WOMEN

Fair Defendant in Illinois Town Surprised When Convicted.

St. Louis, July 31.—The most surprised woman in Illinois is Mrs. Blanche Thompson, who had demanded a jury of women to try her on a charge of using profane language.

Mrs. Thompson thought sure her own sex would stand by her and was particularly indignant when the six fair jurors within ten minutes found a verdict of guilty and placed her fine at \$5.

It was the first woman jury in Southern Illinois under the new suffrage law giving the women the right to vote and serve on juries and the fact that four of the girls were under age and another did not live within the court's jurisdiction did not prevent their acceptance by both sides.

## RECOGNITION OF HUERTA URGED

DAKOTA ROADS GET DELAY

Rate Litigation Goes Over Until September 8.

Pierre, S. D., July 31.—After the refusal of the state to accept a 2½-cent rate and dismiss the passenger and freight rate litigation, the railways asked for more time on the ground that A. K. Gardner, their attorney in this state, has been ordered by his physicians to take a complete rest.

The state conceded a delay, until not later than September, provided Judge Willard is willing to make the change.

CHILDS SHOTS SELF.

New York, July 31.—As little twelve-year-old Susan Langer, nee Lay on a cot in Amsterdam hospital suffering from a bullet wound in her head, her mother hovered near and repeated over and over again that she loved the child. And, although Susan was barely conscious, the mother hoped that she might understand. Susan shot herself with a revolver after writing a note saying: "I know you like the two dogs better than you do me, you said so."

Susan may recover, but in that event she will be blind, the hospital physicians say.

Henry Lane Wilson's Plan Impresses Solons.

FULL DATA MAY BE ASKED

President and Secretary Bryan Still Firm in Policy Not to Take Action. Huerta Not to Be Candidate to Succeed Himself.

Washington, July 31.—Ambassador Henry Lane Wilson's conference with members of the senate committee on foreign relations resulted in stronger support for his plan to recognize the Huerta government in Mexico than he has received at any time since reaching Washington.

After a three hours' questioning of the ambassador many members of the senate committee expressed the opinion that serious consideration should be given to his recommendations for a guarded and restricted recognition of Huerta, designed to bolster up the present government until elections can be held Oct. 26.

President Still Firm.

The determination of the government's Mexican policy does not rest with the senate, however, and there was nothing in the situation to indicate that President Wilson or Secretary Bryan had wavered in their determination not to recognize the Huerta government at present.

The conference at the capitol was distinctly a presentation of "his side of the case" by the ambassador to Mexico.

As a result of the generally favorable impression he created it is believed the administration will be urged to furnish the senate committee at once with its private information, gathered by William Bayard Hale, Reginald H. Del Valle and by consular agents at various points.

Two principal points of difference have been developed between Ambassador Wilson and the administration. These relate to the present control of Huerta over Mexican affairs and to the conditions that would result from the downfall of the Huerta government.

Ambassador Wilson told the senate committee that the Huerta government dominated affairs throughout the republic and had driven the Constitutionalists out of many of their strongholds, including the states of Coahuila and Nuevo Leon.

The president, it is understood, has information, considered thoroughly reliable by himself and Secretary Bryan, which shows the Constitutionalists strength to be greatly in excess of the estimates of Ambassador Wilson, and indicates that the Huerta government dominates the situation only in a small part of the republic.

Huerta Not a Candidate.

President Huerta had assured him, Ambassador Wilson told the committee, that he would not again be a candidate for president.

Ambassador Wilson told the committee he believed intervention highly undesirable.

BECAUSE  
**THEY CANNOT RIP  
AND DO NOT FADE  
OR LOSE THEIR SHAPE  
NOR WILL THEY BAG.**  
Bathing Suits require specially constructed cloths. Constant wetting  
and drying imposes an unusual strain upon ordinary material.  
**Bavaria Bathing Suits**  
are made of cloths very firmly woven and shrunk by a secret process before  
being made into the garment, there remains, therefore, no possible chance  
for further shrinking.  
Better step right over to our store now and see the many new models  
we are showing. Our suits are not only durable, but prettier than anything  
we have ever seen. The lower priced garments are made with the same  
care that characterizes the best models.

Right and Left Hands.

As regards the moral significance of  
the right and left hands, a highland  
friend who is something of a Gaelic  
scholar gives me the interesting infor-  
mation that in Gaelic the right and  
left hands become respectively the  
"south" hand and the "north" hand.  
The moral aspect of it comes out in the  
Gaelic idea of the south as rich, well  
favored and fortunate and the north as  
the reverse. In the "south" hand are  
carried riches and honor. The north  
handed man is unlucky. And now we  
know why it is so many Scotsmen go  
southward!—London Chronicle.

Fled the Wrath.

Friendly Constable—Come, come, sir,  
you must pull yourself together; there's  
your wife calling you. Festive Gent—  
What she call—hic—calling me, Billy or  
William? Constable—William, sir. Festive  
Gent—Then you bet I'm not goin'—  
hic—ome.—London Opinion.

**CERTIFICATE OF INCORPORATION OF CONSOLIDATED CUYUNA IRON COMPANY**

Know all men by these presents: That we, the undersigned, have agreed to and do hereby associate ourselves together as a corporation under chapter 58 of the Revised Laws of Minnesota for the year 1905, and the amendments thereof and supplementary thereto; and to that end we do hereby execute the following certificate of incorporation, to-wit:

First.  
The name of this corporation shall be Consolidated Cuyuna Iron Company, and its principal place of business shall be the Village of Crosby, Crow Wing County, Minnesota.

Second.  
The general nature of its business shall be to purchase, own, hold, sell, option, lease, mortgage, convey, manage, improve, operate and deal in mineral and other lands, to explore and develop mineral lands, to mine, smelt, reduce, refine, or work iron ore or other ore or mineral; to work coal mines or stone quarries and to market their products; to manufacture iron, steel, copper or other metals; to buy, sell or otherwise deal in timber and timber products; to buy, sell, own, hold, and transfer and otherwise invest and deal in stocks and shares of other corporations, bonds, mortgages and book accounts, to borrow money and to secure, give and issue all forms of commercial paper, and written evidence of indebtedness; and to do all other such acts and to transact all other such business as will properly be incident to and necessarily connected with the lines of business above specified.

Third.  
Said corporation shall commence on the first day of August, A. D. 1913 and continue for a period of thirty years.

Fourth.  
The names and places of residence of the incorporators are as follows: Thomas E. Haley, Crosby, Minnesota; John E. Mattson, Ironton, Minnesota; Donald B. McAlpine, Ironton, Minnesota.

Fifth.  
The management of the affairs of this corporation shall be vested in a board of nine directors, who shall be elected by the stockholders from their number at the regular annual meeting of such stockholders, to be held on the first Tuesday in September, in each year at eight o'clock in the evening at the principal office of said corporation; Said Directors shall hold office for one year and until their successors are elected and have qualified.

The first board of Directors shall consist of the following members: Patrick J. Long, Ironton, Minnesota; Robert J. Shields, Superior, Wisconsin; Donald B. McAlpine, Ironton, Minnesota; John E. Mattson, Ironton, Minnesota; Rupert Swinnerton, Hibbing, Minnesota; David Severance, Crosby, Minnesota; Henry J. Breen, Crosby, Minnesota; John McManus, Deerwood, Minnesota and Michael J. McGuire, Superior, Wisconsin. Who shall hold office until the first annual meeting in September, 1913, and until their successors have been elected and have qualified.

Sixth.  
The amount of the capital stock of said corporation shall be Five Hundred Thousand Dollars (\$500,000), to be paid in cash or property, as the Board of Directors shall from time to time determine, and shall be divided into Five Hundred Thousand shares of the par value of One Dollar each.

Seventh.  
The highest amount of indebtedness or liability, to which this corporation shall at any time be subject is \$500,000.

Eighth.  
The officers of this corporation shall be a President, Vice President, Secretary and Treasurer, and such other officers as may be provided for in the by-laws of said corporation, who shall be elected by the Board of Directors from their number at a meeting immediately following the annual meeting. The following shall serve as officers of said corporation until their successors are elected and have qualified: President, Patrick J. Long; Vice President, Robert J. Shields; Secretary, Donald B. McAlpine; Treasurer, John E. Mattson.

In testimony whereof, we have hereunto set our hands this 25th day of July, A. D. 1913.

Right and Left Hands.  
As regards the moral significance of the right and left hands, a highland friend who is something of a Gaelic scholar gives me the interesting information that in Gaelic the right and left hands become respectively the "south" hand and the "north" hand. The moral aspect of it comes out in the Gaelic idea of the south as rich, well favored and fortunate and the north as the reverse. In the "south" hand are carried riches and honor. The north handed man is unlucky. And now we know why it is so many Scotsmen go southward!—London Chronicle.

## MERCHANTS-CLERKS PICNIC SCHEDULE

First Special Train for Merrifield at 8 o'clock, Second at 9 in the Morning

### BRAINERD STORES CLOSE AUG. 6

Fare Round Trip 36c—Sports Include Boating, Bathing, Ball Games, Picnicking, Etc.

Within a few short convolutions of the calendar Wednesday, August 6, the date of the Merchants and Clerks picnic, will be here and two special trains will be at the depot that morning to carry the picnicking party to Merrifield.

The first special leaves at 8 o'clock and the second at 9 o'clock. Returning, they leave Merrifield at 6 and 9 P. M. respectively. The fare for the round trip is 36 cents. The committee tried hard to make it a straight 35 cents, but up to the hour of going to press the one cent reduction had not been made and there is bound to be a famine in pennies if some one does not ship some 'n to aid in making change on August 6.

Merrifield is situated on North Long lake and the pleasures of the day include boating and bathing. There will be a ball game which will trot out some of the best baseball talent in that neck of the woods. The Brainerd City band has been engaged to play and Dr. Sykora has said the band will play on the slightest provocation. A dancing pavilion has been built and will be utilized by all who enjoy this pleasure.

At last accounts the former mayor of Brainerd, General Chairman H. P. Dunn, had marshalled his speech for the opening of the picnic ceremonies. Quinn Parker, mayor of Merrifield, has his line of language well in hand. What with practicing for the baseball game, completing picnic arrangements at the Merrifield grounds, arranging the program, macadamizing streets so they will stand the strain of the heavy travel that day, making the key for the village which is to be handed to the Brainerd people, mowing the grass on the ball field, and giving such other instructions, more or less, as will be needed on the day of the picnic, the mayor of Merrifield is having just one blamed thing after another to do before the auspicious day dawns.

Everybody in Brainerd is invited to attend the picnic. Bring along your lunch basket and plan to spend a day of solid enjoyment for every member of the family. Mayor Quinn Parker is planning a garage for storing baby carriages with a trained nurse in attendance.

### Receives Third Call

Rev. Karl A. Lundin has received a third call from Duluth to be pastor of the Third Swedish Baptist church. He was pastor of the First Swedish Baptist church of Duluth from 1896 to 1902. He then went to Iron Mountain, Mich., then to Spokane, Wash., and to Grand Rapids, Mich., coming to Brainerd three years ago where he has been pastor of the Swedish Baptist church. Earnest and tireless, Rev. Lundin enjoys the reputation of being a man of great constructive ability, who builds churches, clears debts and increases congregations and imbues his people with enthusiasm and the religion which penetrates the whole week instead of merely the Sabbath only.

## ACCIDENTALLY SHOOTS HIS WIFE

F. F. Wm. Butts, Crosby Jeweler, Accidentally Fires Automatic Revolver in Store

THOUGHT IT WASN'T LOADED  
Thirty-Room Addition to Spalding Hotel as Large as Original Section First Built

Crosby, Minn., July 31—While F. F. Wm. Butts, the jeweler, was showing an automatic revolver to a visitor in the store Wednesday noon, the weapon was accidentally discharged the bullet plowing a hole in the plate glass of the display case and bounding 40 feet and striking his wife in the breast as she was preparing supper.

The bullet entered at the left breast and passed out at the right side, making a very painful flesh wound. Mrs. Butts has a three months' old baby boy and was nursing him. She will recover providing no complications set in. The husband is frantic with grief over the occurrence.

It appears that Mr. Butts had removed the magazine from the gun. Reading in a jeweler's weekly paper of a robbery, he put a cartridge in the barrel. When some one dropped in the store Wednesday and discussed revolvers, he showed his automatic. He always carries a gun because on two occasions, once when some one attempted to rob the store and on another time when three men attempted to steal a watch from him, a gun came in very handy to check the trouble.

Forgetting the bullet in the barrel, he showed the revolver to the visitor and in displaying it Mr. Butts carelessly pulled the trigger. The bullet bounded from the show case and through two open doors to the kitchen where Mrs. Butts was standing. She cried out and rushed toward him, the blood streaming from her breast. A doctor was summoned and everything has been done to relieve her sufferings.

Mr. and Mrs. Butts formerly lived in Brainerd where he was employed in the E. S. Houghton jewelry store. She was formerly Miss Helen Tollefson.

The Ingalls Motor Boat company is giving away souvenirs in the shape of boxes of matches and on the covers are shown their time cards.

Rev. Charles Fox Davis, of Minneapolis, the popular Methodist minister, performed a marriage ceremony here Wednesday.

Mrs. George B. Frankforter, wife of the dean of chemistry at the university of Minnesota, has been the guest of Mr. and Mrs. C. J. O'Connell.

Miss Norma Ingalls is showing great ability as a pilot of motor boats. Harry Peterson and Pete Peterson, of Brainerd, made a motorcycle trip to Crosby and the Cuyuna range on Wednesday.

Building operations in Crosby include the thirty-room addition to the Spalding hotel which has the brick work almost completed. At the Trio block the last brickwork is being done. At the Stein & O'Rourke block across the street the bricklayers will soon finish their part of the contract.

### Taking Him Down.

Of a certain attorney his younger rivals relate the following amusing anecdote. "Tis better told in the ancient anecdote style, too and also.

One day the office bell sent forth a shrill jingle, and the office boy hastened, in as far as haste was in him, to answer it. After a suitable interval he re-entered the inner office and said:

"A client wishes to see you, sir."

"An old client or a new one?" asked the lawyer.

"A new one, of course," answered the boy.—New York Globe.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only cure known to the world. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 15c. Take Hall's Catarrh Pills for constipation.

## LIGHTNING STRIKES HOUSE

John Zander Home, of Northeast Brainerd, Struck by Bolt at 10 O'clock Last Night

The home of John Zander, in Northeast Brainerd, was struck by a bolt of lightning at ten o'clock last night. The terrific crash jarred the city. The lightning bored a hole through the roof of the story and a half cottage and demolished the chimney.

Mrs. Zander sleeping on the main floor near the chimney, was shocked by the lightning and for a time was in hysterics. She said her body felt as though it was full of needles. The lightning penetrated the west end of the roof and passed out at the east end and the chimney was struck squarely and entirely wrecked. The electric lights were put out.

## THOS. R. CONGDON A GREAT PAINTER

Left Brainerd a Struggling Art Student, Returns Artist With International Reputation

### MADE THE STRUGGLE UNAIDED

Excels in Genre Work—Examples of Brush in French, German, American Art Galleries

To leave Brainerd a struggling art student and to return president of the American Art association in Paris, France, leader in the American colony there, with studios in Paris and New York, with examples of his brush accepted by the Musee du Luxembourg and the Petit Palais, Paris, and the Carnegie Institute of New York, is the experience of Mr. Thos. R. Congdon, the American painter and etcher.

In the Musee du Luxembourg are the paintings entitled "St. Etienne du Mont" and the "Fontaine de Carpeaux." In the Petit Palais, Paris, are the "Pont Neuf" and a scene in London, being factories on the Thames.

Mr. Congdon left Brainerd a poor boy. He acquired his art education and his experience abroad through his own efforts. He studied at the Art Students league in New York and then went to Paris. He makes frequent trips to Holland, Venice, and Brittany where he spends his summers.

It is in genre work that he excels. He loves to paint the peasants of Holland and Brittany and by so doing gets very close to the hearts of the great, common people.

He has also been successful as a portrait painter and examples of his art are recent portraits of Gov. Bushnell's daughter, of Ohio; the daughter of the British ambassador at Paris; Frank-King Clark, a noted vocal teacher in Berlin, Germany.

"It has only been in the last ten years that foreigners admitted there was an American school of art. Two years ago at the international exhibits in Rome and Venice one found the works of many American artists. The Americans are also gaining honors and recognition at the Paris salon. The cubist and futurist art is considered by many but a passing fad. However, the Americans are liberal in their views. They believe it may stir up something, just as impressionism has awakened the old school," said Mr. Congdon.

"I always have a feeling of friendship for Duluth," said Mr. Congdon, "for quite a number of my paintings are owned by Duluth men. Their assistance enabled me to continue my studies."

The "Music Master" Mr. Congdon considers one of his best works. He saw David Warfield in the play and returning to Europe the day after, he made sketches from memory on the boat and then completed the picture in Paris. Mr. Warfield has expressed his intention of acquiring the picture.

While in America he visited a sister in the east and at Brainerd his nephew, Harry W. Congdon, and brother, Frank B. Congdon. The late J. C. Congdon was a brother of the artist.

Mr. Congdon recalled with pleasure the visit made to his studio in Paris by James S. Gardner and son, George H. Gardner, who some years ago toured the continent.

"I find Brainerd is not like the Brainerd of old," said Mr. Congdon, in a reminiscence way. "It has been much improved. It is much more cosmopolitan. Let me tell you my experience. I was here several days before I knew what made a noticeable change. Then it dawned upon me that the jack pines were gone."

Mr. Congdon also spent some days with his friend, Senator C. D. Johnson. He met many friends in Brainerd and all were gratified at the signal success he has achieved in the world of art.

The artist has gone to Duluth and there will meet many of his friends whom he has not seen for years. Simple and sincere, powerful and vigorous, Thomas R. Congdon personifies the pictures he paints.

## LIBRARY BOARD HAS A MEETING

Donations of Books Received From Mrs. J. H. Spencer and the Drama League

### LIBRARIAN'S REPORT FOR JUNE

Number of Bills Allowed and Ordered Paid—Progress Made Towards Roof Repairing

The regular meeting of the library board was called to order by President J. A. Wilson. The members present included Mr. Wilson, J. B. Wilmar and Mesdames Patek, Early and Rowley. The minutes of the previous meeting were read and approved.

President Wilson reported the efforts made to have the roof finished, which as yet were unsuccessful.

The librarian reported the receipt of a set of Stoddard's illustrated books from Mrs. J. H. Spencer. They were accepted and the donor was tendered a vote of thanks and the secretary instructed to so inform her. Mrs. Patek presented seven books from the Drama League and they were accepted, the donor being given a vote of thanks and the secretary instructed to inform the league.

The librarian reported that more shelving was needed. It was moved and seconded that the secretary order shelving for the space south of the chimney and for the southwest corner of the north area and to specify that the shelving be of the same finish corresponding with other parts of cases.

A report from the ladies of the Children's Hour was read and placed on file.

The following bills were allowed and ordered paid:

Waldorf Binding Co. \$52.95  
Louis Sherlund 75  
John Larson, coal 25.92  
Apgar, draying, etc. 5.00  
Anderson, plants 7.95

The librarian's report for the month of June was read and accepted.

### Unsightly Face Spots

Are cured by Dr. Hobson's Eczema Ointment, which heals all skin eruptions. No matter how long you have been troubled by itching, burning, or scaly skin humors, just put a little of that soothing antiseptic, Dr. Hobson's Eczema Ointment, on the sores and the suffering stops instantly. Healing begins that very minute. Doctors use it in their practice and recommend it. Mr. Alleman, of Littleton, Pa., says: "Had eczema on forehead; Dr. Hobson's Eczema Ointment cured it in two weeks." Guaranteed to relieve or money refunded. All druggists, or by mail. Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis. H. P. Dunn.—Adv. 11c

## MERCHANTS-CLERKS PICNIC SCHEDULE

First Special Train for Merrifield at 8 o'clock, Second at 9 in the Morning

BRAINERD STORES CLOSE AUG. 6

Fare Round Trip 36c—Sports Include Boating, Bathing, Ball Games, Picnicking, Etc.

Within a few short convolutions of the calendar Wednesday, August 6, the date of the Merchants and Clerks picnic, will be here and two special trains will be at the depot that morning to carry the picnicking party to Merrifield.

The first special leaves at 8 o'clock and the second at 9 o'clock. Returning, they leave Merrifield at 6 and 9 P. M. respectively. The fare for the round trip is 36 cents. The committee tried hard to make it a straight 35 cents, but up to the hour of going to press the one cent reduction had not been made and there is bound to be a famine in pennies if some one does not ship some 'n to aid in making change on August 6.

Merrifield is situated on North Long lake and the pleasures of the day include boating and bathing. There will be a ball game which will trot out some of the best baseball talent in that neck of the woods. The Brainerd City band has been engaged to play and Dr. Sykora has said the band will play on the slightest provocation. A dancing pavilion has been built and will be utilized by all who enjoy this pleasure.

At last accounts the former mayor of Brainerd, General Chairman H. P. Dunn, had marshalled his speech for the opening of the picnic ceremonies. Quinn Parker, mayor of Merrifield, has his line of language well in hand. What with practicing for the baseball game, completing picnic arrangements at the Merrifield grounds, arranging the program, macadamizing streets so they will stand the strain of the heavy travel that day, making the key for the village which is to be handed to the Brainerd people, mowing the grass on the ball field, and giving such other in-

structions, more or less, as will be needed on the day of the picnic, the mayor of Merrifield is having just one blamed thing after another to do before the auspicious day dawns.

Everybody in Brainerd is invited to attend the picnic. Bring along your lunch basket and plan to spend a day of solid enjoyment for every member of the family. Mayor Quinn Parker is planning a garage for storing baby carriages with a trained nurse in attendance.

### Receives Third Call

Rev. Karl A. Lundin has received a third call from Duluth to be pastor of the Third Swedish Baptist church. He was pastor of the First Swedish Baptist church of Duluth from 1896 to 1902. He then went to Iron Mountain, Mich., then to Spokane, Wash., and to Grand Rapids, Mich., coming to Brainerd three years ago where he has been pastor of the Swedish Baptist church. Earnest and tireless, Rev. Lundin enjoys the reputation of being a man of great constructive ability, who builds churches, clears debts and increases congregations and imbues his people with enthusiasm and the religion which penetrates the whole week instead of merely the Sabbath only.

## ACCIDENTALLY SHOOTS HIS WIFE

F. F. Wm. Butts, Crosby Jeweler, Accidentally Fires Automatic Revolver in Store

### THOUGHT IT WASN'T LOADED

Thirty-Room Addition to Spalding Hotel as Large as Original Section First Built

Crosby, Minn., July 31—While F. F. Wm. Butts, the jeweler, was showing an automatic revolver to a visitor in the store Wednesday noon, the weapon was accidentally discharged the bullet plowing a hole in the plate glass of the display case and bounding 40 feet and striking his wife in the breast as she was preparing supper.

The bullet entered at the left breast and passed out at the right side, making a very painful flesh wound. Mrs. Butts has a three-months' old baby boy and was nursing him. She will recover providing no complications set in. The husband is frantic with grief over the occurrence.

It appears that Mr. Butts had removed the magazine from the gun. Reading in a jeweler's weekly paper of a robbery, he put a cartridge in the barrel. When some one dropped in the store Wednesday and discussed revolvers, he showed his automatic. He always carries a gun because on two occasions, once when some one attempted to rob the store and on another time when three men attempted to steal a watch from him, a gun came in very handy to check the trouble.

Forgetting the bullet in the barrel, he showed the revolver to the visitor and in displaying it Mr. Butts carelessly pulled the trigger. The bullet bounded from the show case and through two open doors to the kitchen where Mrs. Butts was standing. She cried out and rushed toward him, the blood streaming from her breast. A doctor was summoned and everything has been done to relieve her sufferings.

Mr. and Mrs. Butts formerly lived in Brainerd where he was employed in the E. S. Houghton jewelry store. She was formerly Miss Helen Tollefson.

The Ingalls Motor Boat company is giving away souvenirs in the shape of boxes of matches and on the covers are shown their time cards.

Rev. Charles Fox Davis, of Minneapolis, the popular Methodist minister, performed a marriage ceremony here Wednesday.

Mrs. George B. Frankforter, wife of the dean of chemistry at the university of Minnesota, has been the guest of Mr. and Mrs. C. J. O'Connell. Miss Norma Ingalls is showing great ability as a pilot of motor boats. Harry Peterson and Pete Peterson, of Brainerd, made a motorcycle trip to Crosby and the Cuyuna range on Wednesday.

Building operations in Crosby include the thirty-room addition to the Spalding hotel which has the brick work almost completed. At the Trio block the last brickwork is being done. At the Stein & O'Rourke block across the street the bricklayers will soon finish their part of the contract.

### Taking Him Down.

Of a certain attorney his younger rivals relate the following amusing anecdote. 'Tis better told in the ancient anecdote style, too and also.

One day the office bell sent forth a shrill jingle, and the office boy hastened, in as far as haste was in him, to answer it. After a suitable interval he re-entered the inner office and said: "A client wishes to see you, sir."

"An old client or a new one?" asked the lawyer.

"A new one, of course," answered the boy.—New York Globe.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 18 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ### LIGHTNING STRIKES HOUSE

John Zander Home, of Northeast Brainerd, Struck by Bolt at 10 O'clock Last Night

The home of John Zander, in Northeast Brainerd, was struck by a bolt of lightning at ten o'clock last night. The terrific crash jarred the city. The lightning bored a hole through the roof of the story and a half cottage and demolished the chimney.

Mrs. Zander sleeping on the main floor near the chimney, was shocked by the lightning and for a time was in hysterics. She said her body felt as though it was full of needles. The lightning penetrated the west end of the roof and passed out at the east end and the chimney was struck squarely and entirely wrecked. The electric lights were put out.

## THOS. R. CONGDON A GREAT PAINTER

Left Brainerd a Struggling Art Student, Returns Artist With International Reputation

### MADE THE STRUGGLE UNAIDED

Excels in Genre Work—Examples of Brush in French, German, American Art Galleries

To leave Brainerd a struggling art student and to return president of the American Art association in Paris, France, leader in the American colony there, with studios in Paris and New York, with examples of his brush accepted by the Musee du Luxembourg and the Petit Palais, Paris, and the Carnegie Institute of New York. Is the experience of Mr. Thos. R. Congdon, the American painter and etcher.

In the Musee du Luxembourg are the paintings entitled "St. Etienne du Mont" and the "Fontaine de Carpeaux." In the Petit Palais, Paris, are the "Pont Neuf" and a scene in London, being factories on the Thames.

Mr. Congdon left Brainerd a poor boy. He acquired his art education and his experience abroad through his own efforts. He studied at the Art Students league in New York and then went to Paris. He makes frequent trips to Holland, Venice, and Brittany where he spends his summers.

It is in genre work that he excels. He loves to paint the peasants of Holland and Brittany and by so doing gets very close to the hearts of the great, common people.

He has also been successful as a portrait painter and examples of his art are recent portraits of Gov. Bushnell's daughter, of Ohio; the daughter of the British ambassador at Paris; Frank King Clark, a noted vocal teacher in Berlin, Germany.

"It has only been in the last ten years that foreigners admitted there was an American school of art. Two years ago at the international exhibits in Rome and Venice one found the works of many American artists. The Americans are also gaining honors and recognition at the Paris salon. The cubist and futurist art is considered by many but a passing fad. However, the Americans are liberal in their views. They believe it may stir up something, just as impressionism has awakened the old school," said Mr. Congdon.

"I always have a feeling of friendship for Duluth," said Mr. Congdon, "for quite a number of my paintings are owned by Duluth men. Their assistance enabled me to continue my studies."

The "Music Master" Mr. Congdon considers one of his best works. He saw David Warfield in the play and returning to Europe the day after, he made sketches from memory on the boat and then completed the picture in Paris. Mr. Warfield has expressed his intention of acquiring the picture.

While in America he visited a sister in the east and at Brainerd his nephew, Harry W. Congdon, and brother, Frank B. Congdon. The late J. C. Congdon was a brother of the artist.

Mr. Congdon recalled with pleasure the visit made to his studio in Paris by James S. Gardner and son, George H. Gardner, who some years ago toured the continent.

"I find Brainerd is not like the Brainerd of old," said Mr. Congdon, in a reminiscent way. "It has been much improved. It is much more cosmopolitan. Let me tell you my experience. I was here several days before I knew what made a noticeable change. Then it dawned upon me that the jack pines were gone."

Mr. Congdon also spent some days with his friend, Senator C. D. Johnson. He met many friends in Brainerd and all were gratified at the signal success he has achieved in the world of art.

The artist has gone to Duluth and there will meet many of his friends whom he has not seen for years. Simple and sincere, powerful and vigorous, Thomas R. Congdon personifies the pictures he paints.

## LIBRARY BOARD HAS A MEETING

Donations of Books Received From Mrs. J. H. Spencer and the Drama League

### LIBRARIAN'S REPORT FOR JUNE

Number of Bills Allowed and Ordered Paid—Progress Made Towards Roof Repairing

The regular meeting of the library board was called to order by President J. A. Wilson. The members present included Mr. Wilson, J. B. Wilmar and Mesdames Patek, Early and Rowley. The minutes of the previous meeting were read and approved.

President Wilson reported the efforts made to have the roof finished, which as yet were unsuccessful.

The librarian reported the receipt of a set of Stoddard's Illustrated books from Mrs. J. H. Spencer. They were accepted and the donor was tendered a vote of thanks and the secretary instructed to so inform her. Mrs. Patek presented seven books from the Drama League and they were accepted, the donor being given a vote of thanks and the secretary instructed to inform the league.

The librarian reported that more shelving was needed. It was moved and seconded that the secretary order shelving for the space south of the chimney and for the southwest corner of the north area and to specify that the shelving be of the same finish corresponding with other parts of cases.

A report from the ladies of the Children's Hour was read and placed on file.

The following bills were allowed and ordered paid:

## STAGE MANNERISMS.

Grossmith Rebelled Against Imitating Charles Mathews.

Weedon Grossmith in "From Studio to Stage" has something sensible to say about the practice of imitating the methods and mannerisms of great actors, a practice that was once more frequent than it is now. On his return to London he played a part that had been played many years before by Charles Mathews and who had thus established a sort of orthodoxy in its presentation. Mr. Grossmith relates:

"I was asked by the producer to do the same business that Charles Mathews did, and when making my exit at the end of the first act the stage manager said, 'Now, Mr. Grossmith, throw the tails of your frock coat over the back of your head.'"

"Why?" I asked.  
"Because Mathews did it," he replied.

"Never," said I. "Not having had the good fortune to see the great Charles Mathews, I naturally can't imitate his methods, and I must do things my own way."

"Really," said the producer and, looking at the other members of the company for applause and encouragement, in his best cynical vein added, "We have many of us heard through press notices what a brilliant actor Mr. Weedon Grossmith is in America, but is he going to improve on Charles Mathews in London?"

"That's not quite the point," I replied. "How Charles Mathews did this business I don't know. At any rate, he was a gentleman in every part he played, and I am much afraid his imitators have vulgarized his business, for it doesn't seem to me possible that Charles Mathews would make an exit from a drawing room in the presence of ladies throwing his coat tails entirely over his head, and, whether he did or not, I absolutely decline to do it!"

## Rid Your Children of Worms

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brislin, of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. H. P. Dunn, Advt. tte

## A Pony Sentinel.

During one of General Custer's Indian campaigns he had a boy bugler with him who was mounted on a circus pony he had picked up somewhere. The animal was not only full of tricks, but he proved himself a better sentinel than any of the soldiers. Three times in four months he saved the camp from a night attack when no other suspected that danger was near. Upon one occasion the pony, who was loose and walking about camp, discovered a sentinel asleep on his post. That was wrong, and the animal knew it was, and he gave the soldier such a bite on the arm as caused him to yell out and arouse the whole camp. Pony and boy both died in Custer's last battle.

## Old Philadelphia.

A book printed in England at the end of the seventeenth century says that Philadelphia contained many stately houses of brick and several fine squares and courts. Between the principal towns the "watermen constantly ply their wherries." There are no beggars to be seen, nor, indeed, have any the least temptation to take up that scandalous life.

## Method.

"Willie asks a great many remarkable questions," said the pensive father.

"Yes," replied the observant mother. "Whenever he wants to get out for the afternoon he puts a lot of queries up to you so that you will let him go out and play while you consult the encyclopedia."—Washington Star.

The Northwestern Building Association started nine years ago, now has assets of nearly \$350,000.00 and its business is rapidly increasing. The Superintendent of Banks has recently authorized it to do business in additional territory and the Association is now empowered to loan in all of the following counties:

Otter Tail, Clay, Becker, Wadena, Todd, Douglas, Grant, Wilkin, Hubbard, Crow Wing, Koochiching, Itasca, Pennington, St. Louis, Aitkin and Beltrami.

Anyone who desires to borrow for the purpose of buying, building or paying for a home, should write to or call on the Association. All loans are closed promptly and there is no delay in getting your money. This Association is modeled on the newest methods of installment paying and its plan is so flexible that it will meet the requirements of any borrower. Write for circulars and application blanks.

## STAGE MANNERISMS.

Grossmith Rebelled Against Imitating Charles Mathews.

Weedon Grossmith in "From Studio to Stage" has something sensible to say about the practice of imitating the methods and mannerisms of great actors, a practice that was once more frequent than it is now. On his return to London he played a part that had been played many years before by Charles Mathews and who had thus established a sort of orthodoxy in its presentation. Mr. Grossmith relates: "I was asked by the producer to do the same business that Charles Mathews did, and when making my exit at the end of the first act the stage manager said, 'Now, Mr. Grossmith, throw the tails of your frock coat over the back of your head.'"

"Why?" I asked.  
"Because Mathews did it," he replied.

"Never," said I. "Not having had the good fortune to see the great Charles Mathews, I naturally can't imitate his methods, and I must do things my own way."

"Really," said the producer and, looking at the other members of the company for applause and encouragement, in his best cynical vein added, "We have many of us heard through press notices what a brilliant actor Mr. Weedon Grossmith is in America, but is he going to improve on Charles Mathews in London?"

"That's not quite the point," I replied. "How Charles Mathews did this business I don't know. At any rate, he was a gentleman in every part he played, and I am much afraid his imitators have vulgarized his business, for it doesn't seem to me possible that Charles Mathews would make an exit from a drawing room in the presence of ladies throwing his coat tails entirely over his head, and, whether he did or not, I absolutely decline to do it!"
